OSAS VARs can now tell their customers that they can update their OSAS software and any custom changes to the newest version BBJ from BASIS. BBJ is compatible with BBX, PRO/5 and Visual PRO/5. There is no need to discard costly custom changes or paying to redo them in some other environment. Simply upgrade your current BBX, PRO/5 software to BBJ and get all the benefits that today's technology can offer. For more information on the benefits of BBJ go to BASIS site at <http://www.basis.com>

Call us at 305-266-4255.

Give your customers the technology possibilities they desire at a reasonable cost.
